

*The Nation's First GSE-Compliant E2E Closing Alternative*

# United Wholesale Mortgage Launches Disruptive Mortgage Loan-Closing Process Utilizing GSE-Compliant Alternative to Title Insurance

Theodore Sprink  
Managing Director, iTitleTransfer, LLC  
October 11, 2022

Leading mortgage Lenders and Loan Brokers are wise to provide an alternative to the title insurance monopoly...by providing "CONSUMER CHOICE".

<https://lnkd.in/gmE2dvrJ>

Fannie Mae and Freddie Mac (GSEs), both of whom have authorized safe and reliable ALTERNATIVES TO TITLE INSURANCE, are to be congratulated for providing Consumer Choice...which will lead to lower Borrower closing costs and more efficient closing processes.

Naturally the title insurance trade association, fully controlled by the title insurance monopoly, is repeating their tired old party line of how valuable they believe title insurance to be.

But the fact is that a monopoly of four corporate conglomerates (including their extensive agency network) control nearly 90% of the "closing market"...which was \$26 BILLION REVENUE IN 2021. Incredibly, they paid an unbelievable low 3% in claims.

The American economy should always be based on Consumer Choice and Alternatives to the outdated Status Quo. Consumers, Lenders, Brokers and Realtors should never be controlled by a monopoly.

PropTech Innovators, crafting safe, reliable and low-cost Alternatives authorized by the GSEs, should be recognized for providing Consumer Choice. The title insurance status quo monopoly, historically restricting Lender and Consumer Choice is in the process of being significantly disrupted.

*iTitleTransfer* is an innovator providing a GSE-compliant Attorney Opinion Letter, as a component of its new safe, reliable and low-cost "**iClosing Platform**".
